More Free USMLE , MCCEE ,MCQe and AMQ Flashcards

MCC of Ischemia

atherosclerosis in coronary artery

MCC of a Perfusion defect

Pulmonary embolis

What is the MCC of leukemia

Ionizing radiation

What is the most common cause of Fulminant hepatic necrosis due to drugs

APAP
Due to Free Radicals
Most damage is done around the central Vein

Most common cause of non tramatic amputation of the lower leg is what

diabetes
popliteal artery atherosclerosis

most common cause of hemmorhagic infarction of the small bowel is what

adhesions from a previous surgery

Most common cause of broncho Pneumonia	Strep. Pneumonia
Most common cause of fatty liver	Alcoholism
Most common complication of Obesity	Hypertension
most common cause of World blindness	Chlamydia
What is the most Common complication of Vita-A toxicity	increased intracranial pressure Papilledema **headaches**
Most common cause of renal disease in US	Diabetes
Most common Cause of Vita-K Deficiency	Broad spectrum antibiotics

Most common cause of
thiamine deficiency

Alcohol

most common cause of Niacin
deficiency

Diet High in Corn

What is the most common
cause of B6 Deficiency

Isoniazid

What is the Most common
cause of trace metal deficiency

total parenteral nutrition

Most common Skin Cancer

Basal Cell

What is the Most Common
Sarcoma in children

Embryonal rhabdomyosarcoma

Most Common location of
Mixed tumor

Parotid gland

What is the most common type of malignant lymphoma	non-Hodgkin's lymphoma: B cell follicular lymphoma
What is the most common extranodal site for a primary malignant lymphoma	Stomach
What is the most common adult leukemia and overall leukemia	CLL
What is the most common childhood leukemia and cancer	ALL
What is the most common germ cell tumor	Teratoma
What is the Most Common type of metastasis	Lymphatics Usually carcinomas
What is the most common site of Hemotogenous sarcoma metastasis	Lung second is bone

What is the most common site for seeding metastasis from ovarian, GI, or pancreatic cancers	Peritoneal cavity
Most common bone metastasis	Vertebral column Due to Batson plexus Second is proximal femur
What is the most common symptom of bone metastasis	Pain
What is the most common cancer metastasis to the liver	Lung cancer
What is the most common Organ metastasis to	Lymphnodes
What is the most common primary site of metastasis to the lymphnodes	Breast
What is the most common primary cancer of the lymphnodes	Non hodgkins lymphoma

What is the most common Primay site for Lung cancer	Breast
What is the most common Primary for lung cancer	Adenocarcinoma
What is the most common primary site for brain cancer	Lung
What is the most common primary cancer of the brain	Glioblastoma multiform in adults medulloblastoma in children
What is the most common primary site for bone cancer	Breast
What is the most common primary cancer of bone	Multiple myeloma 2nd is osteogenic sarcoma
What is the most common primary site of adrenal cancer	Lung

What is the most common primary cancer of the adrenal

Adenocarcinoma

What is the most common cause of transitional bladder cancer

smoking

what is the most common cause of angiosarcoma of the liver

vinyl chloride

what is the most common cause of cancer in the lung

polycyclic hydrocarbons
SMOKING

what is the most common cause of squamous cancer of the esophagus and oropharynx

SMOKING

Whats the most common cancer in AIDS

Kaposies Sarcoma
Gonna See on skin

What is the most common cause of leukemia

radiation

most common Hematologic associations with cancer	Anemia of chronic disease
most common cause of death in cancer is	infection E.Coli for catheter P. Aeruginosa for respirator
Most common paraneoplastic syndrome	Hypercalcemia
most common cancer in Southeast China	nasopharyngeal carcinoma secondary to EBV
Most common cancer in Northern China	esophageal cancer
most common cancer in Japan	stomach adenocarcinoma : due to smoked products
Most common cancer in Southeast Asia	hepatocellular carcinoma due (HBV + aflatoxins (molds) in food

Most common malignant lymphoma in Africa	Burkitt's lymphoma due to EBV located in the jaw
Most common cancer prevented by immunization`	hepatocellular carcinoma due to HEV vaccination also prevents HBV and HDV
